*My husband and I have homeschooled our 8 children for the past 11 years. Although we appreciated our experiences, we knew our kids needed more social and academic opportunities that were not available with our current program. We decided to apply at FCS after testimonies from other parents. This was a big change for us, but after the first day of school we already saw the differences we were praying for.*

*The staff and faculty have all been so supportive and understanding of each of my children's needs as they made this educational transition. We love seeing them become more individual as they find their interests through this process. Thank you for your passion for teaching and for encouraging all the students and parents along the way!!  
With Gratitude, Deanna Tonn and family!*

"Faith Christian School is truly a beacon of hope and light in this Yuba-Sutter community. The teachers, staff, administrators, and Board members deeply care about our school and for the families and children to whom we minister. Every family, every child is loved and cared for and prayed over. Everything we do, every decision we make is done humbly in the name of our Lord and Savior Jesus Christ. I am so grateful that my boys are experiencing the beauty and the love of Christ within this school."

# Season Summary: Junior High Volleyball - Our Game, His Glory!

"Junior high volleyball players wore that motto on their t-shirts this season, but it was more than just a decal, it was also their focus. Mixed in with skill development, scrimmaging and team building were conversations and devotions centered around what it looks like to reflect Christ-like character on the court. Whether they won or lost, made a good play or missed a serve, the girls were challenged to react with an attitude and demeanor that was positive and uplifting to those around them, demonstrating true leadership."

## Varsity Volleyball - Accomplished Building skills and unity

"The Varsity Volleyball team worked incredibly hard this season. Not only did they develop their skills as a team, there was also evident drastic improvement in the individual skills of each player. Perhaps our greatest accomplishment was learning to respect one another and to work together for a common goal. This is truly something that we all had to intentionally work at as we tackled a tough schedule and various challenges along the way. As cliché as something like this sounds, some teams never come close to achieving any sort of unified front. This team definitely did just that"
